**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of Species III, represented by Figures 1 and 8, claims 1, 4, 6, 7, and 9 in the reply filed on 12/09/2004 is acknowledged.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Tedesco et al. 6,161,059.

Tedesco '059 discloses a vending machine that selectively provides reward item, different than the purchasing item, to a user per claimed invention. The reward item can be in the form of supplementary product from the purchased product, a rebate, a

coupon, and cash-award. Tedesco '059 comprises means for dispensing purchased product and means for dispensing reward item. Tedesco '059 vending machine provides mode selecting means for the user to receive both purchase product and reward item when said user participates in a survey, or for the user to receive only the purchased product.

4. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated over San Martin et al. 6,431,395.

Martin '395 discloses a vending machine that selectively provides prizes, different than the purchasing item, to a user per claimed invention. Martin '395 dispenser comprises a lottery game located on the door 4 of the dispenser. Said door 4 comprises an interactive screen with the ability to conduct promotions and provide instant prizes to the customer (column 4, lines 30-37, lines 59-62, and column 5, lines 24-30). If the customer wins a lottery game, a prize will be rewarded. Martin '395 vending machine provides mode selecting means for the customer to receive both purchase product and prizes when the customer wins the lottery game, or for the customer to receive only the purchased product.

***Allowable Subject Matter***

5. Claims 4, 6, 7, and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
